STANDARD VALUE ADDED OPTIONS FOR DOT MATRIX LCD CHARACTER MODULES

INTRODUCTION

Densitron offers the standard value added options described below for its extensive range of Alphanumeric LCD Modules. This value added service enables the design engineer to easily select the appropriate connector/cable configuration for a particular application. The engineer is thus assured of getting a complete display sub-assembly built to his specification and 100% tested before shipment. This service will benefit customers, by reducing the costs of purchasing and stocking connectors and cables, as well as the manufacturing costs involved in assembling and testing these display sub-assemblies. Hidden cost such as scrap and reworked parts will also be eliminated.

Apart from these standard options, Densitron can offer other value added and custom configurations to meet your specific needs. Please contact one of Densitron's local sales representatives for details; or send your specifications directly to Densitron for quotation.

NOTES:

1. All connectors are mounted on back of module PCB
2. Pin plating: 15 microinches (min) select gold
3. $I_{max} = 3.0A$; Insulation Resistance = 1000 Mohms
4. All connectors are MOLEX male pin headers
5. Pin Material: Drawn 0.025" square wire
6. Dielectric Strength = 600 VAC r.m.s. for 1 minute

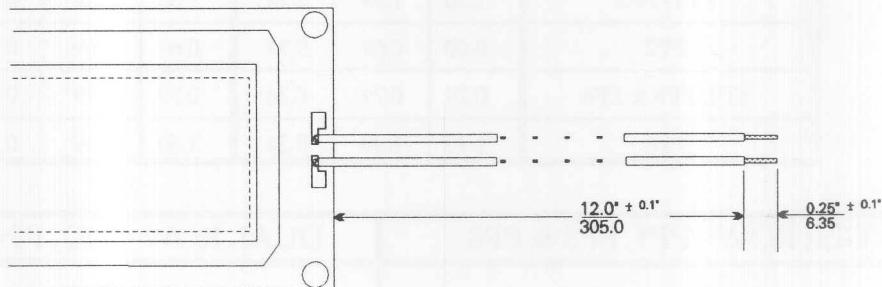

I/O PIN CONNECTOR CONFIGURATIONS

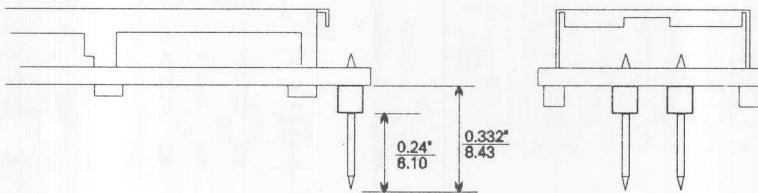

Note: These standard pin value added options do not apply to the following models: LM2212, LM4212, LM2043, LM4043, LM2045 and LM4045. Custom connector and cable assemblies are available for these models.

EL/LED LAMP CONNECTOR OPTIONS

Flying-lead Connections for Backlight (SPL, SPEL, RPL & RPEL Options)

Straight Pin Connections for Backlight (SPP & RPP Options)

ORDERING INFORMATION

To order a particular value added option simply add the value added option part number extension from Table 1 or Table 2 to the end of the standard Densitron part number. For example to order a blue-mode supertwist LM44, 4 by 40 alphanumeric LCD, with transmissive polarizer, extended length straight pin connector and EL lamp leads, order the following part number:

LM44E4C40CSB-SPEL
